IBM IOT WATSON DEVICE CREATION

The screenshot shows the IBM Cloud console interface. At the top, there's a navigation bar with 'IBM Cloud', a search bar, and links for 'Catalog', 'Manage', and the user's account 'Sreepriya bas's Account'. Below the navigation bar, the main content area displays 'Internet of Things Platform-zo' with a status of 'Active' and an 'Add tags' link. A sidebar on the left contains a 'Manage' section with sub-links for 'Plan' and 'Connections'. The main content area features a large graphic of a central square with four rounded corners, each containing a different icon (a cloud, a car, a person, and a device). To the right of the graphic, the text reads 'Let's get started with IBM Watson IoT Platform' followed by a description: 'Securely connect, control, and manage devices. Quickly build IoT applications that analyze data from the physical world.' Below this text are two buttons: 'Launch' and 'Docs'.

The screenshot shows the IBM Watson IoT Platform dashboard. The top navigation bar includes the text 'IBM Watson IoT Platform', a help icon, and the user's email 'bsree7172@gmail.com' with a dropdown menu for 'ID: (select org)'. The main content area has a dark blue background with a circuit-like pattern. In the center, the word 'Cars' is prominently displayed. To the left of 'Cars', the text 'Collect data from' is followed by icons of a cloud, a car, and a person. To the right of 'Cars', the text 'and make value from it' is followed by icons of a car, a person, and a device. At the bottom center, there is a 'Learn More' link. In the bottom right corner, there is a 'Cookie Preferences' button.
